

Android users

To Connect to ShawGo WiFi:

1. Your device must be connected to WiFi or data to watch the ghost stories.
2. Access Settings 
3. Select WiFi 
4. Set WiFi to ON
5. Select the ShawGo network
6. Tap "Connect" and accept terms of use

To Scan a QR Code:

If you already have a QR Code reader app (eg. Google Lens)

1. Open the app
2. Hold the device so that the square lines up with the QR code
3. Tap the shutter button to scan
4. Click the link and enjoy the show!

Newer phones: your camera app may scan automatically - the link will appear.

To install the free Google Lens app:

1. Connect to Shaw Go WiFi
2. Open Google Play  and search "Lens"
3. The first result will be Google Lens 
4. Tap "Install"
5. Select "Open"
6. Select "Open Camera"
7. The first time you use this app, it will ask "Allow Google to take pictures and record video?" Select "Allow"
8. Follow the "To Scan a QR Code" instructions above.

Test it out:

Apple iOS users

To Connect to ShawGo WiFi:

1. Your device must be connected to WiFi or data to watch the ghost stories.
2. Access Settings 
3. Select WiFi 
4. Set WiFi to ON
5. Select the ShawGo network
